AEGIS SERIES
FOR SAMSUNG GALAXY TAB™

TRIDENT CASE™

PROTECTION OF A HIGHER POWER

"Protection without the bulk" sums up the purpose of the Aegis for Samsung Galaxy Tab. The case keeps the tablet safe from drops and impacts as well as scratches and cracks with a hybrid construction of silicone and polycarbonate. The device's screen is also protected with a scratch-resistant screen protector and raised edges on the perimeter of the screen.

3LAYERS

KEY FEATURES

DISTINCTIVE CONSTRUCTION

Unlike Trident Case's other series of cases, with the Aegis, the silicone layer is on the inside — in direct contact with the Galaxy Tab — with a hard polycarbonate shell on the outside.

DROP PROTECTION SYSTEM

The four corners of double-thick silicone shield the Galaxy Tab from everything including light bumps to violent drops with a unique, shock-absorbing design.

ANTI-SKID DESIGN

The exposed portions of silicone not only safeguard the Galaxy Tab from drops, but also act as high-friction, anti-skid pads — working when the case is face-up or face-down.

DUST AND DEBRIS INSULATION

The USB and headphone ports are both protected with removable silicone plugs. The power and volume buttons are all 100% functional while completely underneath the silicone.

SCREEN PROTECTOR

The Aegis for Galaxy Tab comes with a scratch and smudge-resistant screen protector – keeping the screen safe without sacrificing responsiveness.

6 Case Colors Available
